LILY and DOLLY WRIGHT Editors and Proprietors.

## WASHINGTON LETTER.

From our regular correspondent

The keypote of the administration will probably be sounded by Secretary Carlists in his address which he has decided to deliver before the sound money convention to be held at Memphis, Ten. on the 23rd of May. He has not made any public atterrances since the free coinage question has assumed alarming proportions in the West and the public is greatly interested. Comptroller Eck als will endeavor to stem the tide of free coinage that a rapidly rising in Michigan, with a speech at the Detroit Chamber of Commerce banquet on the 2nd prox.

Great Britain is here reported to be ready to occupy the Nicaraguan Port, Cornete and a dispatch has been sept from Admiral Stephenson of the British first to the Nicaraguan government The disputch is in the nature of an ultitaxtum and to which no reply bas yet neen received by the British authorities. On the 24th Minister Pauncefote had a long conference with Secretary Gresham and also with Mininster Cuzman of Nicaragus who communicated the intelligence he had received from his government. The outcome is understood to be that that the administration is supposed to exercise is its good offices be tween the two countries so far as is consistent. This outcome was arrived at by the members of the Cabinet going out to Woodjey, the country seat of the President and there holding an informal mesting.

The general opinion of the leading Republicans here is that their party will best declare for the free coinage of silver in the next convention. This opinion has been expressed by ex-Senator Power of Montana even though personally ke is inclined to favor the side of the white metal. Senator Proctor of Vermont at d Representative Babcock. Chairman of the late Republican Con pressional Committee, are both said to be equally certain that there will be no silver plank in the Republican platform Senetur Pr eter, who, it will be remem bered, was a member of Harrison's Cabinet, says that the delegates to the ext. vention from his state will be uninstructed but that they will understand and follow out the sentiment of the peop of the state. He also says that while he is of the opinion that the sentiment in favor of a wider use of silver, is growing in the New England states, but they are not ready to tavor free coinegs. Representative Bubcock is about to sail for Europe where he hopes to be able to make an investigation of the financial conditions abroad. He says he is cerrain that the advocates of free coinage have nothing to hope for in the action of the next Republican convention. However, he says that he thinks both Kansas and Nebraska will send gold delegates to the convention. In this, unless all the signs be to the contrary, he is vastly mistaken and therefore little relianer is placed on his judgement as a whole. Still it is pretty generally conneded that there will be no hope for the silver men in either of the old parties.

That surthquake shock reported at Woodward was all a mistake. County Atty, Wright, was down there last week and it was only a trembling of the ground oxused by the combined weight of Mr. Wright and Will E. Bolton when they met .- Hardwty Herald.

The Allegheny, Pa., Presbytery has placed itself on record as opposed to the theory that dancing is a sin. Migs the house if there is any girls at home. Mary Ewalt, of Bakerstown Presbyterisn church, was dismissed because she desced and would not promise to refrain in the future. She appealed her case to the Presbytery and was upheld, the decision being that deneing is a eraction of conscience. Dr. R. M. witt try a new plan and plant it both ways, Means, of Pinc Creek church, who was expelled by his paster for signing a liquor license application, was reinstated by the Presbytery .- Ex.

No country on earth lays claim to better soil than Ok'akhoma. thing that will grow anywhere can be successfully grown here, providing the rainfall is sufficient. If we lack water there is only one way to get it. Let's all pull of our coats and go after it. There's no use standing around and waiting .- Woodward Jeffersonian.

PISO SICURE FOR

It is funny how some people discover Jas. Murphy has been sick for some time the real importance of a newspaper when they get into a scrap of do something they are ashamed of. They live for years without subscribing and when as ked to advertise they say it don't do any good. But the minute they get into scrap they rush to the editor and request him not to say anything about it, in case it is toruble in which their pames hap pen to be mentioned. They then realize the paper has a circulation and dou't want their names spread all over. Appreciation of a newspaper should begin before you get into trouble. It might be well for some people to inscribe this indelibly upon their memory tablet or paste it in their hats .- Ex.

The Human Electrical Forces!

How They Control the Organs of the Body. The electrical force of the human body, as he nerve fluid may be termed, is an especially attractive department of science, as is

exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The neuronogastric nerve, as sure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve doscending from the base of the brain and terminating in the bowels is the pneumogastric, while the namerous little branches supply the

els is the pneumogastric, while the namerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by Irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize, the importance of this fact, but treat the organ itself instead of the cause of the trouble The noted specialist, Franklin Miles, M. D., Lt. B., mas given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared as the principle that all nervous and many other difficulties originate from disorders of the bervecenters. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous presertation, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opinites or dangerous drugs. It is sold on a positive guarantee by all druggists, or seat direct by the Dr. Miles Medicai, co., Elkhart, Ind., on receipt of price, #1 peabottle, six bottles for \$5, express prepaid.
